University of Notre Dame*

DESMOND M. CLARKE

*Professor of Philosophy at
University College Cork*

The main objective of Cambridge Texts in the History of Philosophy is to expand the range, variety, and quality of texts in the history of philosophy which are available in English. The series includes texts by familiar names (such as Descartes and Kant) and also by less well-known authors. Wherever possible, texts are published in complete and unabridged form, and translations are specially commissioned for the series. Each volume contains a critical introduction together with a guide to further reading and any necessary glossaries and textual apparatus. The volumes are designed for student use at undergraduate and postgraduate level, and will be of interest not only to students of philosophy, but also to a wider audience of readers in the history of science, the history of theology, and the history of ideas.

Beyond Good and Evil is one of the most scathing and powerful critiques of philosophy, religion, science, politics, and ethics ever written. In it, Nietzsche presents a set of problems, criticisms, and philosophical challenges that continue both to inspire and to trouble contemporary thought. In addition, he offers his most subtle, detailed, and sophisticated account of the virtues, ideas, and practices which will characterize philosophy and philosophers of the future. With his relentlessly energetic style and tirelessly probing manner, Nietzsche embodies the type of thought he wants to foster, while defining its historical role and determining its agenda. This edition offers a new and readable translation, by Judith Norman, of one of the most influential texts in the history of philosophy, together with an introduction by Rolf-Peter Horstmann that sets it in its historical and philosophical context.
